We understand the importance of celebrating birthdays in one's life. Even, our students' birthdays are celebrated in school assemblies with humming of a birthday song and a birthday card is presented to students for the same to make them feel important. This exhibits our students' birthdays mean a lot to us.

It has been observed that some of the parents celebrate their ward's birthday in school premises with expensive gifts, chocolates and cakes. It causes other students to insist their parents on celebrating their birthdays in the same manner.

Therefore, you are requested not to send, eatables, chocolates and cakes for your ward's birthday to school. Henceforth, no cake cuttings will be done in classrooms. It will be a good gesture to contribute one book to the school library or the sapling. Looking forward for your cooperation.
